KX-TGM470 Amplified Cordless Telephone with Digital Answering Machine

This reliable, full-featured amplified cordless phone is the home phone solution for everyone affected by mild and moderate hearing loss. It is equipped with everything you need to hear and be heard, loud and clear.

Loud and Clear: Amplifies Incoming Voice Calls up to 40 dB

Hear and be heard, loud and clear with Volume Boost control for amplified caller voice volume up to 40 dB. Also includes six voice tone settings and loud base unit ringer.

* Compared to Panasonic standard telephones (15-18 dB).

Slow Talk Mode for Better Understanding

To understand quick-talking callers and garbled or rapid-fire voice messages, the KX-TGM470 comes with one-touch Slow Talk control to automatically slow the speed of caller voices while conversing in real time. It is ideal for clarifying conversations and conference calls, screening incoming calls and playing back voice messages. Slow Talk touch buttons are conveniently located on both the base unit and handsets.

Easy to see ringer LED

Easy to See, Easy to Use

The amplified KX-TGM470 also offer more convenient features with enlarged touch controls. Backlit, easily visible buttons let you choose 6 tone levels (and custom tone levels) for clarifying different voice types. Plus, boost caller voices by up to 40 dB and set the volume of the ringer tone to up to 100 dB. A white-backlit LCD and enlarged backlit numeric call dial keypad make calling quick and simple in any light conditions.
